Butler Race Course.

A large number of people were in attendance on the races given by the Butler Driving Association on their track west of the depot, on Friday and Saturday. The track was not in excellent condition. The weather remained very favorable throughout the two days. This was the first effort to get up anything of the kind here and proved to be a complete success. Wyard's Aim.

The following poem was written for the Times by our talented friend and boss harness-maker, Gus Wyard:

My aim is to make my work of good leather, And stitch it with thread that will hold it together; I have harness trimmed with silver, Japan and brass.

To suit the large horse, the pony or ass; I have halters with three rings, and others with three.

If you don't believe there's good ones just call in and see; And wedding for back-hands, some four inches wide;

They are nice things for summer, for they have been tried; I have bridles for stallions, the gelding and mare;

Bits plated with silver, and snaps made with wire; Biting bridles for colts to teach them to know The ways of the world and in what shape to go.

If I can't show you good work I'll show none at all; I wish not a large profit on work that I sell—A good, honest living will do me quite well;

But try me and see, and I ask for no more. I have a good stock constantly in store. You will see my sign out, and me within—So make me a visit and you'll come again.
